Mr. D. E. Van Farowe, Chief
Analytical, Standards and
Radiation Sections
Michigan Department of Health
Lansing, Michigan 48914

Dear Mr. Van Farowe:

I am sorry that I can not give you the composition by percentage of Pydrauls. These fluids were developed in conjunction with another company and our contract with them prevents us from disclosing any information about their composition beyond the fact that they are phosphate ester based fluids containing chlorinated hydrocarbons.

Sincerely,

M. N. Johnson, M. D.
Assistant Medical Director
