Mrs. D.C. Royland

A letter from D. C. Issing of the Advertising Dept. to R. R. Hydeman, August 2, 1974 indicated that new trade name identification for three plastic additive product lines would be made on or about October 1, 1974. Accordingly Mr. E. J. Mosko had the names changed in the Sales Code Book.

The following trade name changes have been made

CYANOX Antioxidant - formerly Plastanox Antioxidant
CYASTAB Heat Stabilizer - formerly Scotch Laddie Heat Stabilizer
CYASTAT Anti Static Agent - formerly Catanac Anti Static Agent

Attached is a list of the codes which have been changed, showing the new product names. The OCD Chemical Code Book and product specifications will also be changed to agree with the new names.
