

Know-how for sale!

Bundy can mass-fabricate practically anything. Working with strong, versatile Bundyweld steel tubing from design board to production line, Bundy has developed all sorts of cost-cutting tricks with tubing. This means that Bundy can give you high precision at the lowest possible unit cost—whether you need a few simple bends or several million complex formed parts. Bundyweld, double-walled from a single steel strip, is copper-bonded through 360° of double-wall contact. Standard wall thickness and O.D. are held to $\pm .002$ " to $-.003$ ". Covered by Gov't Spec. MIL-T-3520 and ASTM 254. For the full story, write:

BUNDY TUBING COMPANY • DETROIT 14, MICH. • WINCHESTER, KY. • HOMETOWN, PA.

World's largest producer of refrigeration tubing. Affiliated plants in Australia, Brazil, Canada, England, France, West Germany, Italy, Japan, Spain

BUNDYWELD TUBING

SCHEMENAUER MANUFACTURING COMPANY HOLLAND, OHIO

HEATING, VENTILATING AND AIR CONDITIONING EQUIPMENT FOR
INDUSTRIAL - COMMERCIAL - AND INSTITUTIONAL APPLICATIONS

UNIT VENTILATORS and CABINETS

Series 60 Unit Ventilators available in standard heating and ventilating, face and by-pass, year-round air conditioning and electric types. Capacities from 500, 750, 1000, 1250 to 1500 CFM standard air. Free-standing units in combination with matching storage cabinets. Engineering Data Catalog 1100.

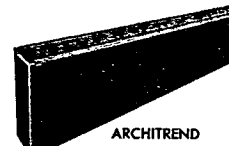

CEILING UNIT VENTILATORS

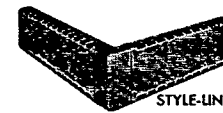

Conserve floor space with ceiling mounted unit ventilators. Six sizes with standard air capacities of 500, 750, 1000, 1250, 1500 and 2000 CFM. Four types available, as above, with optional roll type filter. Information Bulletin 1085.

WINDOW FIN RADIATION

ARCHITREND

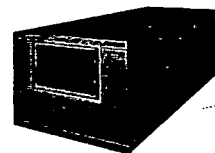

STYLE-LINE

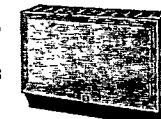

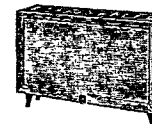

The prestige enclosure may be used separately or with Unit Ventilators. Two distinctive styles: New Architrend featuring continuous aluminum grille and wide color selection, and Style-Line offered in 5 sizes for auxiliary perimeter heating. Request Form 4200.

AUDITORIUM UNIT VENTILATORS

The Schemenauer Acousti-Vent offered in 16 capacities of high and low pressure models. Horizontal, vertical and inverted vertical mounting. Sectionalized construction and "Rigid-Form" framing. Maximum heating efficiency and super quiet operation. Selection Data Catalog 1061a.

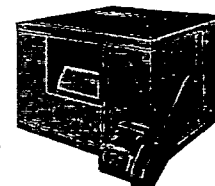

CABINET UNIT HEATERS

Series 70 Cabinet Unit Heaters in floor, wall and ceiling mounted, and recessed types. Eight basic sizes with capacities from 280 to 2050 CFM standard air rating. Hot water or steam heating media. Wide selection of air patterns. Choice of standard base or console legs. Selection Data Catalog Form 1800F.

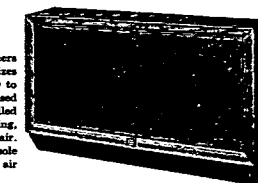

H & V UNITS

Extremely efficient air handlers for commercial and industrial applications. Eight basic unit sizes. Horizontal or vertical installation "Rigid-Form" framing and sectionalized construction. Choice of components to suit heating specifications. Request Form 1700.

CABINET AIR CONDITIONERS

Individual room conditioners available in seven basic sizes with capacities from 200 to 1200 CFM standard air, used with hot water and chilled water systems, for heating, cooling and circulating air. Standard base or console legs. Wide selection of air patterns. Form 1900.

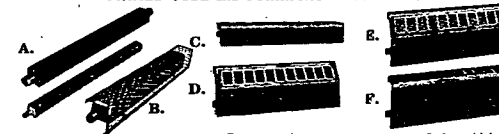

BASEBOARD

DeLuxe Baseboard for easy assembly on commercial and residential installations. Wide variety of non-ferrous elements to meet heating requirements. Commercial Baseboard for industrial or commercial applications. Efficient, comfortable heating. Form 906.

FINNED TUBE and COMMERCIAL RADIATION

A. Ferrous and non-ferrous finned tube element. Wide selection. Efficient heating.

B. "X" Series expanded metal cover for commercial or industrial use. Available in 1, 2 or 3 tier height.

C. "AP" Series flat top enclosure. Lap joint style to accommodate 1, 2 or 3 tiers of radiation.

D. "AW" Series slope top enclosure with lap joint for 1, 2 or 3 tiers of element. Simplified lockstrip mounting.

E. "QW" Series a high quality slope top enclosure with bolted joint styling. Dampers optional.

F. "QF" Series our highest quality flat top enclosure. Bolted joint styling. Dampers if required.

Catalog No. 2000 available at your request.
