Attn: Trade Information Branch

Dear Sirs:

We are interested in a preliminary survey for all chlorinated biphenyl imports to the U. S. A. for the period 1969 to present.

It is our understanding from contacts with the Bureau in 1969 that these imports are classifiable under other cyclic organic products having a benzenoid structure in item 403.60, TSUS.

Chlorinated biphenyls could appear under several different identities:

1. Isomer name - i.e., mono, bi, tri, etc. through decachlorobiphenyl.

2. Foreign Trade Name

Country	Producer	Trade Name
France	Progil	Pyralene
Germany	Bayer	Clophen
Japan	Kanegafuchi	Kanechlor
Italy	Caffaro	Apirolio
Spain	Flix	--

DSW 434697

STLCOPCB4087756

Thank you for your assistance. We look forward to receiving your preliminary survey contract soon.

Sincerely,

Donald R. Pogue
