DOC#: EP010

DOCUMENT DESCRIPTION: Meeting Minutes & Attendee List

COPIES DESTROYED
Staff Meeting 1-16-58

EXHIBIT "H"

ACK-

January 20, 1958

PRESENT: Jones, Huelster, Schmalzl, De Wecse, Cook, D. Allen, Warren,
Wright, R. Allen, and Harbaugh.

ABSENT: Pickard

Mr. Huelster reported we had a total of 7 minor injuries during the past week. He mentioned the majority of these injuries were to the hands.

1 employee treated for bruise and laceration to right forefinger, was shutting off heater.

1 employee treated for small piece of metal to right index finger.

1 employee treated for puncture wound to middle finger, right hand.

1 employee treated for foreign body to left eye, eye quite inflated.

1 employee treated for laceration to 5th finger, left hand from wire.

1 employee treated for infected slag needle to left thumb.

1 employee treated for wood splinter to left forefinger.

Mr. Huelster gave the weekly safety talk on "Protect your lungs". The speaker explained while we do not have too many substances around our plant which could be harmful to the lungs we should always be on the alert and if we do find it necessary to work around harmful gases or dusts we should wear respiration or gas masks.

J. L. Harbaugh is scheduled to give the safety talk next week.

Mr. Schmalzl reports we have 3 more cars of Steam Blown H-4 to make this week end, in addition to this we need a mixed car of H-1 & Project Wool for our Waterloo, Iowa contractor.

Mr. Jones said after checking recent reverberatory figures he feels we should improve our tonnage on this unit.

Mr. Huelster gave a report on his recent visit to the Baldwin-Hall co. plant in Temple, Texas. He explained the difference in the construction and operation of their reverberatory furnace compared to ours.

Mr. Jones feels possibly we can improve our own furnace operation after seeing their reverb in operation.

Meeting adjourned 4:45 P.M.

J. L. Harbaugh
