

R+D160

ACME March 16, 1959 Paoli Lab.

Mr. W. D. Parker WHITE CERTEX

C. W. Lehnert - ml

cc: Mr. K. W. Brown - Acme

We notice you made the 945 and your note that the w.C. was only 74 as compared to our 85. A W.C. of 74 for a product having 8% asbestos and 9.5% protein is way out of line. You better have another batch of this made and double check the weights of the ingredients.
