Data Sheets on MCS-1238, MCS-1865 &

MCS-2866 Fluids

TO :

T. H. Bottini
O. P. DeGarmo
R. N. Perotti
C. E. Weber

The attached copy, which requires your review and approval, is for temporary data sheets on MCS-1238 capacitor fluid and MCS-1865 and MCS-1866 transformer fluids. They will be replaced with more extensive literature at a later date.

You will note that the "handling precautions" statement is missing from the data sheet on MCS-1865/1866 fluids. My understanding is that Dr. Levinskas is currently preparing a statement and that it will be added before the data sheet is distributed.

Thank you in advance for your review and approval of this literature.

W. D. Lubic

Xerox copy sent to W. D. Lubic + D. Wood

Attached is acceptable to Dept. Med + Env. Health as it relates to toxicity + env. areas.

Since I was not an addressee, I had not commented on it earlier.
