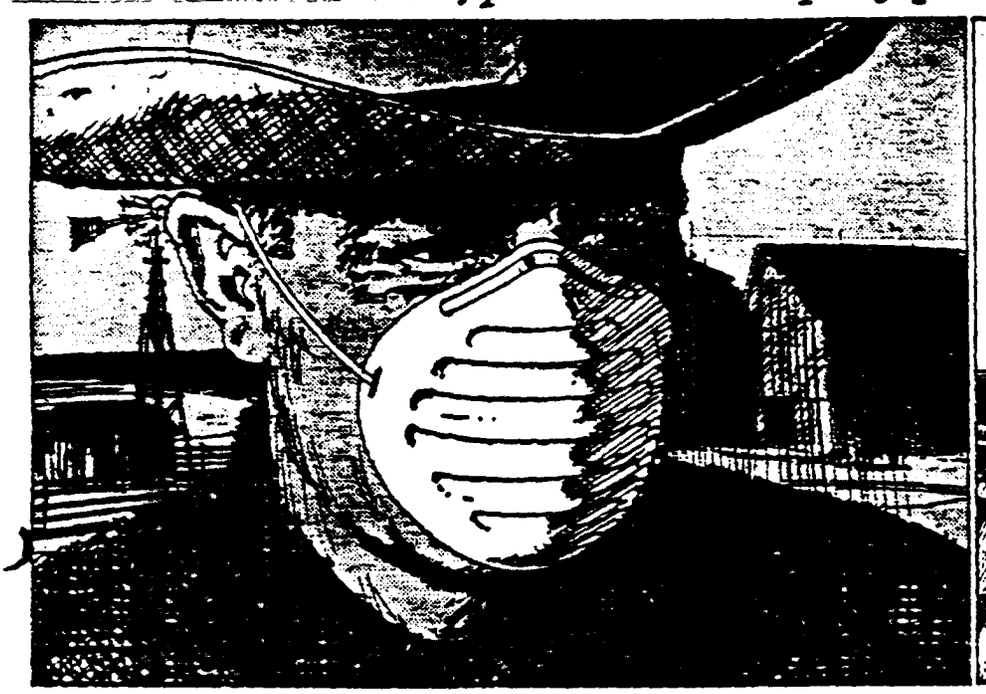
NEW FILTER MASK FROM 3M

Gives excellent filtration against pollens and non-toxic dusts, powders and spray particles!



eliminates irritating dust and pollen while you cultivate.

Dust and pollen are nothing to be sneezed at—especially when you spend long workdays outdoors cultivating.

3M Filter Masks are now available to help you clear the air of this stifling problem.

They protect health and comfort by blocking foreign particles from your respiratory passages. They're lightweight for all-day comfort. Easy to breathe and talk through. Won't interfere with glasses.

Effective? They were modeled after famous 3M surgical masks, used extensively in hospital operating rooms!

3M Filter Masks are durable enough for re-use—or low-cost enough to discard after a single wearing, if you wish. One size fits all faces.
