Dear Mr. Moyer:

Your letter regarding PCBs and addressed to our Nitro, West Virginia, plant has been forwarded to me for reply.

Enclosed are two previously printed articles which should give you a good overview of the history and environmental implications of PCB. I am also enclosing a bibliography on the subject and, hopefully, you will be able to look up any of these literature references in your research library.

If I can be of any further service, please let me know.

Sincerely,

Edward V. John
Director of Public Relations
