Tabulated below is the information required by you for divisional distribution of PCB pollution related work for May 1971.

PR&D Charges (914.46)

Nature of Charge	Hours in May
Direct Research	160
Supervision	8
Total	168

Pollution Control Charges (916.07)

Nature of Charge	Hours in May
Direct Analysis of PR&D Samples	60
Supervision	8
Total	68
Direct Fish Analysis	40
Supervision	6
Total	46

Research continued in May on the reactor-clarifier pilot unit with supporting analytical effort to investigate this method as a means to remove PCB from waste water.

The Pollution Control Group continued also with the analysis of biological materials to quantitate PCB levels present.
