NATION/WORLD

SURGEON GENERAL

Post May Be Filled Soon

Satcher

President Bill Clinton plans to nominate Dr. David Satcher, director of the Centers for Disease Control and Prevention in Atlanta, as the next U.S. surgeon general, administration sources said Thursday.

Satcher would take up the position long vacant in Clinton administration following the forced resignation of Joycelyn Elders and the failure to gain Senate confirmation of Dr. Henry Foster.

YOU WILL RECALL THAT DR. SATCHER IS A NATIVE OF ANNISTON!
