PLAINTIFF'S EXHIBIT FOS-491

FOSECO, INC.

INTER-COMPANY AND INTER-DEPARTMENTAL CORRESPONDENCE

TO: See Distribution

FROM: G. H. FitzGerald

DATE: September 19, 1973

SUBJECT: PROFAX Binder Task Force - Meeting: Tuesday, 9/18/73

1. Present: WCF, AS, GHF.

2. Review and Action Needed:

   2.1 K-4, #685G, EP 5465 production test began 9:30 a.m. Tuesday, 9/18/73; continue running as proposed in last minutes. Possible problems will be encountered with (a) tool leak and (b) boards sticking to dryer racks.

   2.2 Further investigation with Purchasing (DR or AH) concerning liquid dispensing of PVAC. -- AS

   2.3 Reports from Chicago indicate an apparent build-up of X3578 in reclaim system giving gelling of other slurries and burning. -- JTV to discuss with AS

   2.4 Considerable discussion of Engineering and Maintenance requirements during production tests; problem of priorities. Engineering help needed but clear decision is not available as to communication required between departments. -- WCF to discuss with PAP

3. Production tests which need to be scheduled:

   3.1 9/24/73, #669 Republic Canton, EP 5465, 1 rack samples marked "3". (1-piece machine)

   3.2 9/26/73, Seal-On ring of PROFLEX asbestos-free, paper-free recipe. (Mark IV machine)

   3.3 9/19/73, Armco Middletown, 3 pallets each #341 and #342, EP 5465, pallets marked "1". (Mark III machine)

   3.4 Mark III, #718 tool (4-cavity) using spacer and EP 5453A, also run test on same tool using EP 5465.

Next meeting of the PROFAX Binder Task Force will be held Friday, September 21, at 2:00 p.m.
