Dr. R. Gaze
Cape Industries Limited
114 Park Street
London W1Y 4AB, England

Dear Dr. Gaze,

This will acknowledge your letter of the 17th June, along with a copy of your memo on your meeting with Certain-Teed.

Inasmuch as we are not anticipating a trial shipment until 1976 it is probably a bit early, but as the time approaches we shall be concerned as to the availability of grades. Could we assume, for the moment, that we would offer Grade S33 Amosite?

For the record, we shipped Certain-Teed 20 metric tons Grade S and 20 metric tons Grade H in January 1974 for tests.

Sincerely,

CGMorgan/jc
