PLASTIC PIPE TEST METHOD 455-3
IMPACT TEST

We propose to modify this test as shown on the attached marked copy. This will bring it more in line with Paragraph 10 of the proposed ASTM test, a copy of which is attached.

We do not propose to change our equipment in any way. The ASTM draft is for information only and the suggested test methods will not be used for routine testing.

May we have your comments, together with any suggestions you may have for changes in our present specified impact levels.
