MESSAGE

In connection with the following rate request, I advised the Group Office that you felt that you could not give them the split out dependent rates the G.109 asks for without having more information concerning distribution of employees. You had told me that all you could give without the diestribution would be pers only and pers-dep rate. This I also told the G.O. They have decided that if you will give them that much of a split, on a monthly basis, they would advise the FN that this is all they can furnish without distribution. (Flo Holtman felt that the FN would probably not want to give us the distribution anyway).

Will you furnish appropriate rates for this revision at your earliest convenience?

REPLY

Since no distribution available use 1/2 of the Quarterly rates to determine contributions in lay-off for note on G109
