U. S. Maritime Commission
Washington, D. C.

Dear Sir:

Will you please forward me copies of the latest issues of any specifications for your Bureau on thermal insulations and, also, any complete index of specifications which you may have, and bill me for same.

This index need contain only specifications having to do with building, roofing and siding materials, thermal and building insulations and sound-proofings, bituminous paints and cements, asbestos products, and waterproof papers.

If in your Bureau there exists any service whereby specification indexes are sent to interested parties as issued, I would appreciate having my name placed on this list at whatever expense may be involved.

Yours very truly,

The RUBEROID Co.

A. C. Wyckoff
