C. A. Rose
C. K. Eastman
E. E. Bowles
R. S. Yates - St. Louis

This letter confirms the verbal approval that you gave J. C. Landwehr on 22 May '69 for $3800 capital expenditure on Project 3216 to revise the existing Therminol system in the Solid Aroclor department.

The new large pump is on order and is needed to correct the inequities in the Therminol distribution and provide for future expected needs. This project will tie in with the Therminol revisions needed for the Solid Aroclor expansion project CEA 2080.
