

Monitoring Violations Annual Notice

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for PWS ID# WY5601513

Our water system violated drinking water requirements over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we are doing (did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 1, 2024 – December 31, 2024 we did complete all monitoring or testing for Nitrates and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [this contaminant/these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were taken
Nitrate	Annual	0	Between 1/1/24 and 12/31/24	1/7/25

What is being done?

We have started calendar year 2025 by sampling and testing for nitrates, completing sampling on 1/7/25, and receiving test results on 1/28/25. These test results have been shared with appropriate entities.

For more information, please contact Peter Ericson at 970-901-1718 or PO Box 60950, Colorado Springs, CO 80960.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Camp Paintrock Water System, State Water System ID# WY5601513.

Date distributed: 2/24/25
