John Pieterman, Manager

REVIEW OF DISCUSSION (ATTACH REPORT IF MORE SPACE NEEDED):
I discussed with him our conclusion of a need to put warning labels on bags and bulk for the fertilizer operations. I did indicate that to my knowledge, this is the only expanded product of many that we market where we felt a label was necessary; and which was necessitated by our test of a fertilizer plant elsewhere that was poorly run, resulting in excessive readings. I suggested we ship them a bulk car, at our earliest opportunity, and urged that they have their personnel monotored by us, or by State Industrial hygienists.

Attn: John Pieterman, Manager

Dear John,

I appreciate the opportunity to discuss with you the need which we have determined for labeling vermiculite that you are using.

Attached is a copy of a card to be attached to the car, in case of bulk, or to bags in the case of bagged material.

Again, I urge that we ship you a car of bulk at your earliest opportunity, and have your operation monitored by our people if you wish, or by State Industrial hygienists.

Sincerely,

W.V. Culver
District Manager
