Hi Josh,

You need to contact FEMA at FEMA-News-Desk FEMA-News-Desk@fema.dhs.gov .

David

Subject: Update on flooded Arkema chemical plant in Crosby, TX for Vice News

Hi David,

I'm following the case of a flooded Arkema chemical plant in Crosby, TX, for a story today for Vice News.

They're working with federal authorities to secure the situation, but haven't said which ones yet. Do you know who's working with them? I'm hoping to get answers to the following Qs:

Would it be possible to get an update on the situation?

- What's the current status of the evacuation? (How many evacuated, how many still there?)
- What's the current risk-level like of an explosion or chemical leak, and what could be the health effects of that kind of leak?
- How has the state and federal government been involved in this case?

Thanks for the help.

Best,
Josh
