Hydraulo

St. Louis

September 4, 1969

Ms. Marjorie Davies
LOS ANGELES

I talked to Mr. Bickford of Neuschotz Engineering Company and explained to him that we had heard no report of allergy due to Pydraulo.

I stated that anyone could be allergic to one of the ingredients such as an inhibitor, dye, etc. but it looked like one in a million odds. At any rate, he seemed mollified.

R. Emmet Kelly, M. D.
