Mr. J. L. Crockett, Jr.
Technical Staff Director
Water Improvement Commission
State Office Building
Montgomery, Alabama 36101

Dear Mr. Crockett:

Attached you will find the daily Aroclor (1242 and 1254 - polychlorinated biphenyls) losses from the Anniston Plant for the month of December 1971.

The average daily losses are as follows:

Average flow = 829 GPM or 1.194 M gal./day

Average concentration = 0.037 PPM
(Aroclor 1242 and 1254 - polychlorinated biphenyls)

Average lbs. Aroclor = 0.37 lbs./day
(Aroclor 1242 and 1254 - polychlorinated biphenyls)

If there are any questions concerning this data, please contact us.

Again, we request that this data be held as confidential material.

Yours very truly,

Eugene G. Wright
