

Dear Dr. Jarnot:

After talking to Dr. Otto Wong last week and this week, I have agreed to continue to assist him in the case-control study of AML and NHL. Dr. Wong and I have agreed on the following two major items:

(1) I will continue as a Principal Investigator of the case-control study.

(2) My group at the School of Public Health (administrative assistant and research assistants) will assist Dr. Wong in the following activities:

- Monitoring of patient accrual (2007).
- Monitoring of patient interviews (2007 and 2008).
- Assist Dr. Wong in QA/QC when he works in Shanghai (2007 and 2008).
- Literature review of risk factors of AML and NHL (2007).
- Data management and analysis (2008).
- Report preparation (2008).
- Manuscript preparation (2008).

Attached please find our budget estimate for 2007 and 2008. Payments are to be made on a semi-annual basis (50% of the 2007 budget on 30 June 2007 and the remaining 50% on 31 December 2007, 50% of the 2008 budget on 30 June 2008 and the remaining 50% on 31 December 2008). Also attached is a letter from Dr. Jiang Qingwu, Dean of School of Public Health, Fudan University, reaffirming my role in the Shanghai Health Study.

To avoid any disruption of Dr. Wong's work in the case-control study, we have been providing assistance to him without a contract or funding. However, we will not be able to do so for much longer without a formal contract and proper funding. Therefore, I would appreciate it very much if you could reach a decision on our proposal by the end of June 2007.

If you have any questions regarding this proposal, please do not hesitate to contact me.

Sincerely,

FU Hua, Ph.D., MB
Deputy Dean and Professor

School of Public Health
Fudan University
