SUBJECT YOUR HEALTH AND FITNESS MAGAZINE

REFERENCE

TO : W. D. Treleaven OA-16

Would you please review the attached magazine and give me your comments as to how you feel about possibly changing to this magazine vs the current Family Safety magazine that has been sent to the employees' homes quarterly for many years.

While I feel like the Family Safety magazine is an excellent publication, I thought possibly a change might be warranted and this looked like a good alternative since it also covers the area of health.

I think it would be a good idea to have other members of the Office Safety Committee review it in the next month and we could discuss this in one of our meetings around October.

Think Safety!
