FRITO-LAY
THERMINOL FR-2 Sample Results

LOS ANGELES
D. R. Pogue

The following results are reported for a sample of THERMINOL FR-2 received in St. Louis on June 8, 1967.

Viscosity @ 100°F.	42.3 cs.
Acid Number	0.22 mgKOH/g.
Moisture	105 PPM

Viscosity and moisture level are within reasonable limits for in-use fluid. Acid number is just slightly higher than the 0.2 arbitrary limit we indicate for used fluid. Fluid is satisfactory for continued use.

Please report these results to Frito-Lay in Los Angeles.

Thank you.
