TO : C. R. Campbell

PCBs in the south outfall remain at low levels. Recent analyses are listed:

No.	Date 1972	Type	Location	Aroclor 1254 ppb
1	6/12	water	South outfall	0.1
2	6/13	water	River, across from old outfall	0.09
3	6/29	water	South outfall	0.07
4	6/29	water	River, across from old outfall	0.06

A plot of PCB analyses vs Time shows there has truly been a reduction of PCBs in the South Outfall.
