Subject: COMMUNICATIONS UPDATE

Date: November 30, 1983

Hello, everyone.

No doubt you've all been wondering what the Communications Department has been doing since the last update notice.

Well, just to show you we've been keeping busy, enclosed are a few new pieces of literature and some press releases, all issued to the field within the past few weeks.

Specifically, the 12-page SWEETS Brochure represents a considerable undertaking. It is used as an insert for the SWEETS CATALOG FILE, a multi-volume series of reference books considered indispensable by architects in their product specifications.

If you'd like extra copies of the SWEETS insert or any of the other items, please feel free to drop by the Communications Department anytime.
