Subject: Attached is a document written and distributed by the Citizen's Clearinghouse for hazardous Waste Lois Gibbs)

Interesting , it's main purpose is to show people how to win relocation for their community. (The win is to get the right to be relocated.)

It highlights that in most cases it has been a long hard fight.

I believe that we are sensitive to most of the issues raised but it may be of some value to read Lois Gibbs's ideas and recommendations.
