INTER-OFFICE COMMUNICATION Charge: T.S.-GKT-OEM

TO: J. R. RADZIWONOWICZ — OFFICE

FROM J. A. ULRICH — OFFICE

SUBJECT GASKETS - Customer re: Buick — DATE 12/15/67

MESSAGE:

Attached are pieces cut from a precoted treaded steel gasket returned by Buick for being too soft. Please check the pencil hardness. Then bake for small intervals (e.g. 5, 10 min.) @300°F to determine what is necessary to bring it into spec.

Also please see if Leo D. can tell you when these parts were coated, so we could determine what the oven temperature was.
