E. I. du Pont de Nemours & Co.
10th & Market Sts.
Wilmington 98, Del.

Attn: Mr. J. Ray Allen:

You will recall that a few months ago we discussed the possibility of submitting samples of our improved "Precision Molded" Caltemp for your submission to your drop test.

We are in receipt of advise from our factory that shipment of 8 blocks, 12 x 6 x 36" have been shipped on June 18. This shipment moved forward and will be delivered to you by Railway Express. Shipment was directed to Mr. McCormick at your new test station in accordance with the instructions that you gave during our discussion.

We trust that these blocks will be received in good order and that your tests will indicate the improvement that has been made in the product.

We will appreciate your advise if there is any way we can be of any further assistance.

Yours very truly,

Pabco Industrial Insulations
Fibreboard Paper Products Corp.

J. M. Cordrey, Regional Manager
