what new developments ?

Also I think there is a public meeting tomorrow regarding the City of Houston's benzene reduction plan:

<http://www.chron.com/disp/story.mpl/metropolitan/4555236.html>

The city will hold two information sessions on its plan to reduce benzene:

- **Feb. 20** : 5:30 p.m., Duncan Hall, Rice University
- **Feb. 22**: 1:30 p.m., UT School of Public Health, 1200 Herman Pressler

I was considering attending. What do you think

Stuart Cagen, Ph.D.

Team;

We need to discuss latest developments in U of Colorado grant in support of Shanghai Health Study.

I know that some of you are in an API meeting. Would ask that you delay start of meeting by 30 minutes so we can make some decisions, then begin to implement plan.

New info:

U of Colorado grant with Fudan has not expired.

A UofC contract with CinPathoGen would require a conflict of interest and conflict of commitment review

U of C contracts do not require legislative approval

A lawyer from the State Attorney General's sits in the legal department of U of C - so signature is part of their normal review process

If you could attend the benzene meetings, I think that would be good. Do we know where we can actually see a copy of the Houston benzene plan?

Patsy
