FROM (NAME—LOCATION—PHONE) J. H. Craddock - G3WD - 4-4764

DATE : March 26, 1985 cc: G. F. Fort - F3EC

SUBJECT : RHODE ISLAND PCB INQUIRY

REFERENCE :

TO : R. A. Hartmann
F3EC

Attached are several documents to help answer the questions about PCB regulations, disposal and safety.

1. Copy of May 31, 1979 PCB Regulations which include Annex I, Incineration requirements (Federal Register 44, 31514 ff).

2. A layman's summary of item 1 selected topics.

3. The most recent review of PCB health effects by ACSH, an independent university academic body of scientists, published January 1985 (PCBs: Is the Cure Worth the Cost?)

After you (and your inquirers) have digested parts of this, I'd be happy to answer specific questions. Perhaps you could set up a conference call.
