DISCLOSURE OF INVENTION

MONSANTO INDUSTRIAL CHEMICALS CO.

DISCLOSURE NO. _____ ATTORNEY _____

NOTE: Complete this form as soon as one successful experiment illustrating the invention has been performed. Then process the form through your group leader and research manager for review and comments and then submit to the Patent Department. Copies will be distributed after disclosure number and attorney assignment by the Patent Department.

1. Suggested Title: _____

2. Object of Research Project Leading to Invention:

3. Prior Art Bearing on Invention and Scope of Search. If no Search Made, Please so Indicate.

4. Statement of Invention: (Be brief and concise, and include suggested uses of invention, attaching supplementary pages, drawings, etc., if needed. Include C.P. numbers for all new chemicals.) If tradenames or trademarks are used also give the chemical identification.

5. Variables and Alternatives for Additional Examples. (This should include variables believed operative but not actually tried.)

6. (a) What date did you first conceive of this invention? _____
(b) What records do you have to substantiate this conception date?
(1) Notebook page nos. _____
(2) Letters, notes, reports, etc. _____

(c) To whom did you first disclose this invention? _____
(d) On what date did you make such disclosure? _____
(e) What written evidence is there of such disclosure to others? _____

(f) When and where did you make the first written description of the invention? _____
(g) When was the first experimental work toward carrying out the invention accomplished? _____
(h) Please attach copies of notebook page(s) showing such experimental work. If more than ten (10) pages please attach list of notebook page numbers.
(i) Who has observed the progress of your experimental work? _____

(j) Are there other invention disclosures or patent applications now on file or contemplated that are related to this invention? Give details.

(k) When did commercial use begin, e.g., production, use or product sold? Planned? Give details _____

(l) Give dates and details regarding samples, information, or publications relating to this invention which have been or will be given to persons outside Monsanto _____

7. Status of Project:

8. Inventor(s):
