Victor Gasket Division

Victopac Stock Sheets

April 18, 1969

H. Dehr

Attached are copies of inventory listings on Victopac presently in stock in the Menard building. I would like to arrange for disposition. All of our requirements for current and future production have been extracted from this list; these may be considered as surplus and/or obsolete. If you do not want it please indicate whether or not it can be used for refiberizing.

W. J. Sheehan

P.S. Have you been able to work up prices on cut sheets yet?

List will be outdated.
