Q And what do you recall concerning Mr. Wood in terms of his demeanor or anything, that you can recall?

A I thought he was a very pleasant gentleman. I described him as a loving man on several occasions in my chart.

Q Now, prior to seeing Mr. Wood on January 9th, did you have an occasion to either review any of his medical records before seeing him or speaking with any other physicians concerning Mr. Wood's care?

A Yes. Actually, the initial information that I obtained from him was a conversation that I had with Dr. Moko when he called my office and he described his case and what had transpired up to that time.

When I went to the hospital to see him, the first thing I did was to review his hospital records.

Q And --

A I am not sure exactly what records I had available to me at that time except that I do know that I had the records available from the admission which began on January 4th, 1990.
