Mr. George K. McDonald
Chemical Group
Dart Industries, Inc.
P. O. Box 37
Paramus, New Jersey 07652

Dear Mr. McDonald:

Enclosed are copies of information on the health hazards of polychlorinated biphenyls and a copy of a rough draft describing the safe handling of polychlorinated biphenyls. The final version has been delayed panding action of an American National Standards Institute committee which will work on a similar procedure for the capacitor and transformer industries.

To my knowledge all capacitor manufacturers in the U.S. and Canada who use polychlorinated biphenyls have received this type of information and are aware of the total environmental problem.

I hope you find this information useful. If I can be of further service please let me know.

Sincerely,

W. B. Papageorge
Manager
Environmental Protection
