Richard Kotnour
Monsanto
St. Louis

Dear Dick

In case your sales offices missed it or didn't pass it along enclosed a clip about State Senate action on a bill prohibiting parathion among other things.

I have informed Pat Penney I shall be leaving for Europe next week and she said she would pass along the word that I would not be here for about three weeks, although I guess your problems here have lost their urgency.

When I return I shall be opening an office in San Francisco with George Learned of Learned and Co. He is an expert in PR in the electronics field. We shall have a tiny European branch as fast as we can put it together. I do not think I shall have any time for the magazine except perhaps on some kind of consulting basis, but probably not that.
I shall let Pat and you and Tom Ford know my new address and phone as soon as I return and the phone is installed.

Best Wishes,

Linton
