TO R. G. Kaley - T2F
J. P. Mieure - T2F

Per your memo of February 26 I recommend that we follow up with EPA both with Gene Wallin of OTS and Al Trakowski Div. of Monitory and Support. I also recommend that you publish your data in a technical journal. Since publication takes time I recommend that we contact EPA immediately and tell them of the problems and that we will be publishing the data.

I will clear this approach with the business group.
