Mr. Robert N. Gulick
Drywall Industrial Trust Fund
9800 South Sepulveda Blvd.
Suite 712
Los Angeles, California 90045

Dear Mr. Gulick:

In response to your survey questionaire, I submit the following information for Paco Textures:

1. We have only one asbestos free wall texture, identified as Paco B5565 Wall Texture.

2. Unfortunately we do not have asbestos free Joint Compound.

3. Research has been underway for three years but we have been unsuccessful in equaling the quality and low cost characteristics found when using asbestos.

4. Since we have more than one wall texture available, one would have to specify non-asbestos to be assured in getting the No. B5565.

Sincerely yours,

Douglas W. Merrill
General Manager
