Dear Ace:

Your thoughtfulness in writing us is certainly appreciated.

We can understand your position, and in many ways concur with you. At present however, things are working out rather well-we have an active licensee in Canada, California and Australia. Our backlog in New Jersey is higher than any of the last five years.

Give my regards to your lovely wife and remember to call me when you are coming to visit your relatives in Chicago. I still want revenge on my golf course-Medinah.

Best personal regards.

Sincerely,

R. M. Burns
