Bill Moore - Monsanto Sales HOME PHONE 876-5207

John Buttain - Plt Engg

Westinghouse - Bloomington

about 9 yr old plant (Power capacitors { shunt / series 1000 Employ $50 ea

did not go through plant

have detergent (alkaline) wash

Impregnate by individual fill rather than flooding

Receive mate by tank car - Had spills at unloading in port but have built concrete pad with no drains. I did not [illegible]

They have port data related to PCBs in area

Have taken soil samples. Maybe stream and plant effluent samples?

All solid wastes (including reject capacitors) sent to Chemtrol in N.Y. for solids incineration

They have told state of Indiana they would not drop PCBs in state of Indiana
