PROTECTION!

PAINT-PROTECTION against depreciation—just as necessary and wise as insurance-protection against fire!

And be certain that your paint protection is as reliable and dependable as your fire insurance.

Two-thirds the cost of a painting job is *labor*. Hence, to use the *best* paint adds but little to the first cost. It is cheapest in the end.

Pure Prepared Paint and Phoenix Pure Paint are made of only *pure* linseed oil, *pure* white lead and *pure* pigments. "Cheaper" paints are made of cheaper materials, hence the film they form doesn't "hold up"—it doesn't last and it doesn't protect.

Ask any FULLER Dealer. Write for free book, "Your Home as Others See It"—illustrated in colors—suggests many color schemes. *For all large jobs consult a master painter.*
