List of Publications and Presentations.docx

Ryan

Attached is a table list as many of the publications and presentations as I could find a reference to or a copy. There are older some CLE presentations that I only have a paper copy of that I could scan if that would be helpful. I somewhere should have some paper copies of the law review article from 30 years ago on environmental insurance.

I know that I have had other other speaking engagements but I cannot find specific references to the dates or any of the materials. None would be controversial and with one exception none have occurred since I have been at Dow. Early in my Dow career I gave a presentation on some Clean Air Act rules to an American Chemistry Council meeting in New Orleans. I cannot find a copy and cannot recall exactly what the topic was for the presentation. What I remember most clearly is lunch at Galatoire's.

I will be working on the summary of my background of my pre-Dow career and send that in the next couple of days.

I hope you have the opportunity to relax a bit over Thanksgiving.

Regards,

Peter
