Re: LE-109 University of California at Riverside
Special Meeting with the Contractor

On Wednesday, November 2, 1966 at 3:00 p.m. in my room at the St. Francis Hotel (Union Square, San Francisco) we will meet with the contractor to advise on the next steps in the project "Study of the Relationship between the Lead from Motor Vehicle Exhaust and that in Consumer Crops." Specifically, we are interested in discussing the first analyses of soils, vegetation, and air to be made, plus planning for an exchange of samples to be analyzed for comparison purposes.

Please let me know if you will be able to attend this planning session. If you are not able to attend and wish your laboratory to participate in a comparative analysis program, please advise me in advance of the date of this meeting.

This is probably the last chance we will have to get together with this contractor this year, and I hope you will be able to come.

The date and place of the meeting has been chosen to coincide with the annual meeting of the American Public Health Association.

Very truly yours,

Don O. Fowler
