PCB Replacement Candidate
for Transformer Use

W. C. Hammann - T3A

R. E. Beal - B2SB
E. H. Harbison - B3SA
R. A. Pohl - B2SB
D. L. Sliney - B2SB
J. J. Zeman - B2SK

DEC 16 1975

To confirm our discussion, as quickly as can be accomplished, I would like a narrowing of our PCB replacement candidates for transformer use to a single product as we have done with MCS-1238 for capacitor use. When you have digested this request, please drop us a note on your thinking, program and timetable for accomplishment.

Robert G. Potter
