Asbestos and Health

At the Symposium on Wednesday you asked me to let you have some details of the cases of Asbestosis which have occurred in this Company.

I anticipate that you would like to have more detailed information than that which I have readily available. I have, therefore, asked our Records Department to supply me with the name, factory, occupation, date of commencement, date of certification, and if still employed and, if deceased, the date of death.

Our Records Department have promised to let me have this information early next week and I will communicate with you then.
