Feeding arrangements for the cattle had to be entirely rearranged and readjusted due to the change of the location of the silos. In addition thereto, there was a constant effort to test the cattle which required extensive time and labor to the Humphreys. As a result of this they were unable to harvest their feed crop in proper form and did rely upon neighbors and volunteer help to assist them. This, too, resulted in a substantial loss to them by reason of lack of feed.

I am authorised to submit as a settlement figure in the sum of $75,000.00 in this matter.

Very truly yours,

Harry W. Schmuck
