February 27, 1973

Mr. George Sellers
Plibrico Chicago

Dear Mr. Sellers:

As you requested in your Report of February 1, 1973, we have made a plant batch of Air Lite using stabilized vermiculite. The formula was as follows:

Stabilized Zonolite	105#	35
Fly Ash	30#	10
H. E. Portland Cement	165#	55
	300#	100

We are sending two 50# bags to you today and will test one bag here. I trust this will be satisfactory.

Yours sincerely,

PLIBRICO (CANADA) LIMITED
