Attached is a draft response to the Federal EPA letter dated May 27, 1977 concerning the Sauget Treatment Plant. Please review this response and give me your comments by Friday, July 1, if at all possible. I have attached a copy of the EPA letter for your information. We intend to request a July 15, 1977 extension of time to the June 30 deadline for question number IV, however we are committed to begin discharge monitoring as specified by July 8, 1977.

Thanks,

Robert Harness
