SAFETY TRAINING TESTING ATTENDANCE RECORD

I-27

TOPIC: Emergency Kill Procedure

DATE: 11/15/79

LOCATION: *Control Room.*

NUMBER OF HOURS: 15 min

OUTLINE OF PRESENTATION (Major points, demonstrations, what was practiced, slide/tape, film, etc.). Attach separate sheet if necessary.

We went over the emergency Kill procedure, the new Maxson
trap and bumper. We went over the Honeywell starter, the new Blue
down trap setting, and how to kill with N.O. and that a Scottie pack
must be worn when killing with N.O. We also went over a power

EMPLOYEE SUGGESTIONS AND PLANNED CORRECTIVE ACTION:

fortune and which. By to kill first and what to do in case of a power button

"Abuse of Versa Volver"

DATE: 1/1/80

Central Room

NUMBER OF HOURS: 15 min.

We discussed the Versa value above with Jannell
we went over if the do not work with the override call the ~~passed~~
operator. and let him put it on the value list, That listing of values
would not be acceptable.

SAFETY/TRAINING MEETING ATTENDANCE RECORD

I-27

TOPIC: VALVE OPERATIONS & ABUSE DATE: 1/12/80

LOCATION: OFFICE/Field NUMBER OF HOURS: 1/2

OUTLINE OF PRESENTATION (Major points, demonstrations, what was practiced, slide/tape, film, etc.). Attach separate sheet if necessary.

Isabel to each operator about his operator. Valves. Explained that abusing valves is not the method to be used in N.C. to get required, also explained that an "E" W.D. is to be made in the scale called if the following format. Conference. When necessary, when changeable, U.S. H. City, etc.

EMPLOYEE SUGGESTIONS AND PLANNED CORRECTIVE ACTION: Operator stated their feeling about having to work on valves, one man, similar to his, minimal operator in N.C. to keep plant going. felt that valves were not abused for no reason but rather that over a period of time from picking on them that they are finally tired - also that if they were not picked on they would not be picked on at all.
